PROFESSIONAL SUMMARY

A Full-stack developer with a strong interest in front-end development, specializing in the MERN stack and building responsive, user-friendly web applications. Practical industry exposure through multiple internships, with hands-on experience shipping AI-integrated projects. Currently expanding into cloud engineering while pursuing an MCA to strengthen technical depth for a long-term software development career.

EDUCATION

Master of Computer Applications (MCA) SRM Institute of Science and Technology CGPA - Pursuing	2026 – Present Chennai, India
Bachelor of Computer Applications (BCA) St Thomas College of Art and Science (University of Madras) CGPA - 8.22/10.00	2023 – 2026 Chennai, India

INTERNSHIP EXPERIENCE

Full Stack Developer Intern Chennai Metro Rail Limited (CMRL)	01/2026 – 02/2026 Chennai
- Worked on a full-stack web application using modern technologies, implementing both front-end and back-end functionalities. - Developed responsive user interfaces and integrated server-side logic to ensure smooth data flow and user experience. - Gained hands-on experience in real-time project development, debugging, and deployment practices within an IT department environment. - Collaborated with team members to understand system requirements and improve application performance and usability.	
MERN Stack Intern Codec Technologies Pvt. Ltd	06/2025 – 07/2025
- Developed and tested full-stack MERN applications using MongoDB, Express.js, React.js, and Node.js, following Agile development practices. - Collaborated with mentors and peers to enhance technical proficiency and problem-solving skills.	
Web Development Intern Skillforge Pvt. Ltd	11/2024 – 01/2025
- Developed and optimized interactive user interfaces using HTML, CSS, and JavaScript in a collaborative environment. - Implemented both front-end and back-end technologies to deliver seamless user experiences.	

SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, FastAPI

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub

Cloud & AI: AWS Basics, AI Fundamentals

PROJECTS

Chatty

A Real-Time Chat Application

- Developed a real-time chat application using the MERN stack with Socket.io for instant messaging and multi-user communication.
- Implemented secure authentication using JWT and bcrypt, ensuring safe user login and data protection.

- Designed a responsive UI with React.js and Tailwind CSS, including features like theme customization and profile management.
- Built RESTful APIs and integrated MongoDB Atlas for efficient data storage and seamless front-end/back-end communication.

OmniPath

AI Career & Learning Recommendation System

- Developed an end-to-end ML pipeline with data preprocessing, feature engineering, model training, cross-validation, and performance evaluation.
- Experimented with multiple models Decision Tree, Logistic Regression, KNN, SVM and selected Random Forest (~92% accuracy) through GridSearchCV and CV-based tuning.
- Built a FastAPI-based prediction engine and integrated RAG pipeline using LangChain to generate personalised learning roadmaps enriched with real-time course links & YouTube resources.
- LLM-based reasoning for career guidance, roadmap explanations, and chatbot interaction.

AstraDoc (SMART INDIA HACKATHON - 2025)

AI Document Orchestration System for Kochi Metro Rail Limited

- A 6-member team to build AstraDoc, an AI-powered document orchestration system for KMRL.
- Built backend with FastAPI, Azure OCR, AI summarization, English to Native translation, and semantic vector search.
- Delivered a secure, multilingual platform with Azure Active Directory Single Sign-On, Role-Based Access Control and full observability

The Strangers

Culturals Registration Website

- Developed a responsive, user-friendly website for a Rotaract Club cultural event as a freelance client project.
- Implemented seamless functionality and modern UI components to enhance user engagement.
- Tech Stack: HTML, CSS, JavaScript, Tailwind CSS, React

CERTIFICATES

CMRL — Full Stack Developer Internship

IBM Skills build — Generative AI in Action, Getting Started with Artificial Intelligence

Infosys Springboard — Object Oriented Programming using Python

Revamp — An Intensive Web Full-Stack Bootcamp

Codec Technologies — MERN Stack Development

Skillforge — Completion of Web Development

ACHIEVEMENTS & ACTIVITIES

- **Led multiple project teams and mentored juniors** in academics, projects, and skill-building
- **Freelance Project Delivery** — Designed and deployed a website for a Rotaract Club cultural event, managing client requirements end-to-end
- **NSS Volunteer** — Completed 80+ hours of community service, contributing to event execution, logistics, and team management across multiple outreach programs
- **Active hackathon participant** — Competed in Smart India Hackathon 2025 (2 entries) and multiple intra-college technical events
